## NOTICE TO BUSINESS MEN.

The circulation of the DAILY SENTINEL is by far the LARGEST of any daily paper published in the State; and gives it the greatest advantages to Merchants, Mechanics and others, as a medium of advertising.

The *Weekly Sentinel* has now a circulation of over two thousand copies, which is constantly and rapidly increasing in consequence of its merit. Advertisements appear in the Tri-Weekly *Sentinel* without additional charge.

Price of the Daily $6,00, of the Tri-Weekly $3,00 and of the Weekly $2,00 per year, *payable in advance.*

### Prospects of Navigation--Freights.

Opinions differ as to the opening of the Straits. Several vessels have sailed from Chicago, to try the passage, and others have left Detroit and Cleveland, bound up. The *Badger State*, *McBride* and several other vessels, loaded with Rail Road iron and Lumber, were at Port Huron on Monday last, ready to put out for Mackinac on the first favorable wind, or prospect of opening. A letter from Mackinac written as long ago as the 20th of March, and received here on Friday, speaks of the probability of an early opening, in consequence of the large body of snow which had fallen during the winter and was lying on the ice, and that the anticipation be realized, we may look for vessels or propellers from below, during the present week. There is nothing in the weather, to discourage this hope, for with the single exception of Thursday, it was cold, blustering and unpleasant all last week.

All vessels have, as yet, cleared from this port for Buffalo, but several have commenced loading and will be ready to leave early this week.—Meantime freights keep up, 15 cents per bushel on wheat, and other grain in proportion, being freely offered within the past few days.

CONTEMPT ASSAULT.—On Saturday morning last, Mr. S. PARK COON committed an aggravated assault on our Postmaster, Mr. NOONAN, the particulars of which are briefly detailed elsewhere, by our Reporter, who was an eye-witness of the affray, and in the card of Mr. NOONAN himself. The public are left, as yet, to guess at the cause of this violent and disgraceful proceeding, but there can be no difference of opinion as to its character. Mr. COON is a man of great physical strength—in this respect very much the superior of Mr. NOONAN—and was armed and prepared for the attack which he had premeditated; while Mr. N. was wholly unarmed and taken at unawares. Such is not the way in which a brave and honorable man seeks to vindicate his character, to resent insult or to redress wrong.

### Address to the People.

We publish on our third page, for the information of our readers, the address issued at the close of the Session by 7 of the Senators, and 42 Members of the Assembly, concerning the long struggle on the question of a Prohibitory Liquor Law. It is copied from the Madison *Journal*, where it first appeared.

We also give the substitute bill proposed by Mr. Knowlton on the evening of Thursday or Friday before the adjournment, which, as mentioned in our correspondence, caused such a commotion in the Assembly, threatening to cause the Legislature to break up in a row, but which was withdrawn by the mover.

HELPING THEMSELVES.—The Chicago Board of Trade applied to the General Government recently for permission to use the new U. S. Dredge, lying idle in their Harbor, to remove the bar at the mouth of the river. To this request the satisfactory reply was returned that Uncle Sam did'nt lend his property to anybody. An appeal was then made to the proper Department to commence operations forthwith on said Harbor—there being $12,000 or so in the U. S. Treasury applicable to that object. Hereupon the impatient Chicago people were told that the subject was under advisement—and *had* been, since last year—and that bye and bye Col. ABERT and his colleagues would decide what it was best *to do* and proceed—leisurely of course—to do it. Now that is not at all the way in which matters are done at Chicago. So, on Thursday last, Committees of the Board of Trade and Common Council met, discussed the Harbor question, decided that no other dredge but the U. S. Dredge could do the necessary work, and finally resolved to take that Dredge and commence operations on their own book, which was accordingly done on the following day. Long before the "old fogies" at Washington have decided what it was best to do with Chicago Harbor, the energetic people of that city will have done it.

THE TOWN ELECTIONS AND THE NEBRASKA BILL. Throughout the State the people seem to have gone pretty generally into canvass on the extraordinary issue of Nebraska and anti-Nebraska. So far as heard from, the friends of the measure have nothing to regret. They have accepted the issue as tendered by the Free Democrat, Wisconsin and Sentinel, and the democrats have been generally victorious.—*Morning News.*

Our reports of the "Town Elections," differ widely from those of the *News*. As we read these "signs of the times," they show that wherever "the People" have gone into the canvass on the Nebraska issue, the Doughfaces and Slavery propagandists have been signally and deservedly defeated. But we are quite content to have the *News* think and report otherwise, and shall be still better satisfied if it can so far persuade its party friends of the truth of its statements, as to induce them to make "Nebraska and Anti-Nebraska" *the* issue for the Fall Campaign.

☞ The *Wisconsin* assails, without denying our statement, that Gov. BARSTOW was going to Washington to lobby for Land Grants, and begs us to "rest assured that nothing but the most urgent call of *duty* can carry him there." Since the *Wisconsin* affects to know all about the Governor's movements, will it inform us what particular "call of duty" takes him to Washington at this juncture?

☞ We had the pleasure of a visit on Saturday from Mr. FRENCH, editor of the Eastern *Journal* (Maine), who is looking about our State and Iowa for a suitable Township of land on which to colonize a number of New-England families, about to emigrate Westward.

BOATS ON LAKE WINNEBAGO &c.—The Fond du Lac *Union* says that the steamer *Menasha* will be out in a few days, and take the place of the *Pay Pay* on the Lake, the latter plying between Berlin and Oshkosh. The *Barlow* will run up the Wolf River, as far as the mouth of the Embarrass, making the easiest connection with the Wisconsin river districts.

STATE FAIR.—We have come to the conclusion that our business men do not care to have the State Agricultural Fair held in our city during the ensuing fall. To be sure, it would be money in their pockets; bringing thousands of people to the city,—enabling merchants to make new business acquaintances, and to exhibit and dispose of goods to a large amount—filling the public houses, &c. &c. But then our people, unlike those of other towns, do not care for any of these things. So the Fair will probably be held elsewhere.

NEEDS EXPLAINING.—On Tuesday, the Sentinel reported in its list of Legislative appropriations, two of $35 each, to us. We corrected its statement the same day, but it took no notice of it.—*Free Democrat.*

We did not see the "correction," and we can only say that our list was prepared by a careful hand from the bills as they were deposited in the Secretary of State's office. Mr. Booth's last bill of $35 was, like ours, for papers furnished at the June session. The other we do not recollect.

Communicated for the Sentinel.

### Anti-Fugitive Slave Law Meeting.

The citizens of Raymond and vicinity met on Thursday, the 6th inst. at 6 o'clock P. M., to consider the subject of Slavery, and organized by choosing EDWARD RASTALL, Ch'n, and GEO. LAW Sec.

The following Resolutions were unanimously passed by the meeting:

Resolved, That Slavery is a stupendous disgrace to our Country, the sum total of all villainy, the center of all wrong, and that all its advocates, whether they belong to the pulpit, the bench, the National Councils, Officials, or otherwise, are equally void of principle, blind to morality, and dead to a sense of justice, and are therefore unworthy to be free.

Resolved, That some of the measures relative to Slavery which have been forced upon us by vicious legislation, are not to be equaled in the Old World for injustice, tyranny, and wrong. The Fugitive Slave Law, so called, we regard as the masterpiece of Rascality. Independent of State Sovereignty, it defies the law of God, and tramples under foot every Christian precept; therefore we, as Citizens here assembled, enter our solemn protest against it, and hereby pledge eternal hostility to its enforcement, and to the further extension of Slavery.

Resolved, That the thanks of this meeting are due to the citizens of Racine and Milwaukee for their prompt and Christian efforts in behalf of suffering humanity, and although the sands of our Liberty seemed to be fast ebbing to a close, yet though such demonstrations we still have hope.—

Resolved, That four delegates be appointed to meet with the friends of freedom at Young's Hall in Milwaukee, on the 15th day of April.—Edward Rastall, Thos. Hay, Joseph Law and Geo. Law were chosen said delegates.

Resolved, That the proceedings of this meeting be published in the Wisconsin Free Democrat and the Milwaukee Sentinel and Gazette.

Adjourned without day.

EDWARD RASTALL, Ch'n.
GEO. LAW, Sec.

☞ The Albany *Evening Journal*, in mentioning the lodgers in the station-house in that city one night last week, says:

No. 4 was a good looking German boy, who arrived in New York with his mother early last year. His mother procured him a situation, and giving him all the money she could spare, started for Milwaukie, where she now is. Shortly after she left, the poor boy was taken sick and sent to the hospital; but now being sufficiently recovered, was on his way to join his mother.—To an inquiry made by the Chief as to the state of his finances, he stated that he was not entirely out of money, having three cents left. After giving him a "quarter," to enable him to purchase some crackers and cheese, one of the officers promised to make intercession for him to Mr. CORNING, the humane President of the Central Rail Road, that he might be put through as far as Buffalo at least. On hearing these kind words, Child seemed to grow about three inches. Chief MORGAN subsequently made the application, and received a ticket for the young man—a free pass to Buffalo.

### Massachusetts for Freedom!

Old Massachusetts still has the ring of the metal of '76. At a Whig Legislative Caucus a few evenings since, the following Resolutions were adopted:

*Resolved*, That the Whigs of Massachusetts are in favor of freedom and hostile to slavery, and while we defend the South in all their constitutional rights, and would in no way interfere with the maintenance of slavery where it is now recognized by law, yet we are opposed to permitting another square of territory, now free, to be trodden by a slave; and if the Compromise of 1820 shall be repealed, the only safe and reliable platform for the North to stand upon, will be *a firm, united and determined opposition to the admission of another Slave State into the Union, from whatever quarter the application may come.*

*Resolved*, That the bill now pending in Congress, known as the Nebraska bill, and involving the repeal of the Missouri Compromise, is a measure so iniquitous in its character, so hostile to every principle of justice, and involves so gross a violation of public honor, that we are only surprised that an honest man, either North or South, can be found to sustain it.

THE SPOILS CABINET ENDORSED BY WHIGS AND FREE SOILERS.—The joint resolutions introduced in the Assembly by Mr. Hale, endorsing the National Administration, were *tabled* on motion of Mr. Hull, *a Democrat*, by a vote of 41 to 25—sixteen of the twenty-five being *Whigs* and *Free Soilers*.—*Oshkosh Courier* (dem.)

And those sixteen only voted *no* because they wished a direct vote on the resolutions, when they would have voted no in a still louder voice.

### Franklin Town Election.

*Chairman*—Jeremiah Riordan.
*Supervisors*—Jeremiah Ready, Peter Fry.
*Town Clerk*—Patrick Doyle.
*Treasurer*—Patrick Purcell.
*Assessors*—John T. Veeden, H. B. Howard, E. B. Hart.
*Sup't of Schools*—M. J. Egan.

LAND GRANTS—MR. ORTON'S SPEECH.—The Madison correspondent of the Portage City *Republic*, writes as follows concerning the struggle in the Assembly on the Land Grant Memorial before the restrictive amendment was applied to it:

Harlow S. Orton, aided by the Milwaukee delegation, and Mr. Gary (with some others) made a splendid fight upon it. I doubt much whether the walls of the Assembly chamber have ever before rung with such eloquent denunciations, as fell from Orton's lips. Every gag which the ingenuity of the speaker and his able parliamentarian coadjutor, the mover of the question, could suggest, was applied, and for half an hour the interest in the unequal contest was most intense. A one-sided Speaker in the chair, and a vigorous, experienced and unscrupulous lobby, running freely through the House, with all sorts of lies on their lips, and india rubber purses in their pockets, to say nothing of the legitimate and *interested* opposition of a large majority of bona fide members, constitute a hard phalanx for even honesty and integrity to battle.

### Why the South want more Slave States.

A few days since the New York Tribune expressed its surprise that the South should express so much anxiety for the formation of more Slave States, in view of the fact that the Representatives of many of those now nominally free, have been the most subservient and truckling to the slave power, and have gone further and crawled lower to conciliate its favor, than even Southern politicians themselves. It pointed out New Hampshire, Illinois, and California, as instances that strikingly illustrate this fact. There is force in this view of the subject. But the South begins to distrust the *people* of the free states. They fear they will not much longer sustain their representatives in their treason to free principles, and are therefore resolved to secure strength of their own upon which they can rely in every emergency and for all time.

Some facts which we find prepared at our hand in the Cincinnati Gazette, will show why the South are making such unscrupulous and powerful efforts to extend the "area of slavery." It appears from the last census that Alabama has a free population of 423,779 souls, and New Jersey has 489,393; yet Alabama has *seven* representatives in Congress, while New Jersey, with 60,000 more freemen, has only *five*. Michigan, too, having a population of 460,000, in 1850, has only *four* representatives, while Alabama, with only 28,000 more, has seven representatives. Here we find the 342,892 slaves of Alabama not only sufficient to balance the 60,000 free men of New Jersey, but to give her two representatives besides.

In Georgia there are 524,601 free people, and in Connecticut and Rhode Island there are 518,337; but though the free population is nearly equal, Georgia has two more representatives than both these States—because she happens to have 381,682 slaves. Mississippi and Louisiana together have a free population of 569,601, and *nine* representatives; while Illinois, with a free population of 851,470, that is, 281,769 more than theirs, has only *nine* representatives, because, forsooth, she has not half a million of slaves as Mississippi and Louisiana have. Texas has 154,431 free people and two representatives; while Iowa, 192,214, has only two—but then the latter has not 58,191 slaves, who, in Texas, are just equal to 37,783 free men in Iowa. Wisconsin has a free population of 302,329, almost double the free population of Texas, yet the latter has *two* representatives and the former *three*. But Louisiana, with only 272,953 free inhabitants, almost 75,000 less than Wisconsin, has *four!*

In all the free States there is a population of 13,434,798, which is represented in the House of Representatives by 143 members. The slave States have a similar population, a trifle more than one half as large, and yet, instead of having only 71 Representatives, the half of the number sent from the North, it has 90, or 19 more! These nineteen representatives are not the representatives of the six millions of free men in the South, but of the three millions of slaves. The votes of the 18 Representatives from Michigan, Illinois, Wisconsin, and Iowa, with a population of nearly *one million eight hundred thousand white freemen*, are more than neutralized by the Southern representatives of three millions of negroes. It is much less wonderful, therefore, that the South should be so zealous in its efforts to extend an institution that gives them such unequal power in the government, than it is that Northern men can be found so base as to aid them in this struggle for more slave States.—*Detroit Tribune.*

### Paragraphs.

A LARGE PRICE.—It is said that $100 were offered for a private box in the theatre in Charleston, on the night of the 6th ult, when Mrs. MOWATT made her last appearance in that place.

During the half year ending 31st of December 137 persons were killed and 258 injured on English railways.

Two prisoners lately made an attempt to escape from the jail of Rushville, Illinois.—They were confronted by the jailor's wife, Mrs. C. Loyd, who leveled a gun at them, thereby preventing their escape.

THE DUEL.—The Washington *Union* is authorized to say that no challenge passed between Messrs. Cutting and Breckenridge. The whole matter seems to have been most outrageously exaggerated.

We notice that Edwin Forrest indignantly repudiates the rumor that he has become a spiritualist. He says that the only knowledge he has of spirits is what he has acquired by seeing so many ghosts of Hamlet's father.

The bill to authorize the formation of associations to navigate the lakes and canals, known as the Forwarders Bill, was rejected in the N. Y. assembly on Saturday, by a large majority—40 ayes, 60 noes.

When Jackson and Adams were candidates for Presidency, a Jackson Pennsylvanian charged Adams with having for his wife the daughter of George III. An Adams paper conceded the fact, but stated that Jackson married two of them.

*New City Hall.*—The N. Y. Common Council have applied to the Legislature for authority to raise $600,000 for the erection of a New City Hall. They have also applied for authority to raise $500,000 for improvements required in the Croton Water Works.

An English writer states that no less than five tons of human hair are imported from foreign countries into England in a year. The black hair comes mostly from Brittany and the South of France; it is generally of a very fine silken black. The light comes from Germany, where it is collected by the agents of a Dutch Company, who make yearly visits to various parts of the Germanic States.

☞ The Goodenburg Farm, about half a mile from this village, containing 40 acres, was purchased last Tuesday, by the Hon. Lucius J. Rosbor, of Simsbury, Hartford County, Conn., for $1450.—*Jeffersonian.*

ACCIDENT.—We learn that Mr. Sterns of this city, had his color bone dislocated and a rib broken, on Monday, having been caught between the "bunters" of the cars. He is expected to recover.—*Read the Lac Union.*

RUSSIAN PREPARATIONS.—The Russian Government is making extraordinary exertion to raise seamen. A recent proclamation declares that all the sons of free seamen, that is to say, of sailors employed in the commercial marine, are under obligation to serve in the imperial navy for fifteen years from the date of the decree.

Boys of the age of fifteen must be immediately enrolled, and all such children as have attained the age of eight years shall be placed at the disposal of the Governor-General of Cronstadt, who is charged with the task of sending them to schools called "training schools." (*ecoles de novices,*) recently organized.

MURDER BALLADS.—The Legislature of Wisconsin adjourned without restoring the death penalty in cases of murder. Under the Constitution of Wisconsin all offences not punished with death are bailable; murder no longer being punished with death, the consequence is in all such cases, the murderer may be bailed, and so it has been held by the Courts of Wisconsin. The Cartwright tragedy is of the fruits of such laws.—*Chicago Press.*

### State University.

At a meeting of the Board of Regents, on the 3d inst., it was resolved, to proceed with the erection of the second college edifice on the foundation already laid, on the south side of the broad avenue leading up to the site of the main building. The Building Committee will soon advertise for sealed proposals on the part of contractors, and will award the contract to the lowest and best bid coming within the means set apart by the Board.

A further reduction was ordered in the College charges for instruction, &c., the benefit of which is to take effect at once, and to accrue to students in attendance on the instructions of the present term. The tuition fee will be, hereafter, at the rate of four dollars per term of thirteen weeks, making in the aggregate twelve dollars per annum. The fee for room, (including heat,) will be three dollars per term, or nine dollars yearly. Total College charges $7 per term, or $21 for the whole year.

Board in the vicinity of the University varies in price from $1,50 to $2 per week.

The Professor elect of Chemistry and Natural History, has signified his acceptance of the appointment, and will enter upon his duties about the first of June. The applications of the physical sciences to agriculture and the useful arts will fall within the instructions of this department, and will receive a large share of attention. It is expected that the Chair of Mental Philosophy, Logic, Rhetoric and English Literature will be filled at the next meeting of the Board.

In fine, the character and capabilities of this public Institution, and the extremely liberal terms on which the Board are able to offer its advantages to the young men of the state, need but to be generally known and understood, in order to secure general confidence and patronage.—*Madison Argus.*

### The Nebraska Bill Referred to the Committee of the Whole.

On the 21st ult., the Nebraska Bill from the Senate, came up for action in the House of Representatives, and was referred to the Committee of the whole by a majority of *fifteen* votes. This is considered tantamount to a defeat of the bill, as it cannot be called up again unless by a two-third vote, (a thing impossible,) until it is reached in its regular order. Thus ends one act in this grand political play. Considering its reception by the spectators, both in pit and gallery, the managers may deem it prudent to postpone the balance of the Act, until the lapse of time shall have so corrupted public sentiment as to enable it to harmonize with the principles of Slavery, unequal rights, ostracism and oppression which this bill inculcates. The entire North (we say *entire*, for we disclaim the citizen-ship of a *doughface*,") and we doubt not, all true patriots in the South, will hail this intelligence with supreme pleasure. It restores the country once more to quiet, and affords a useful lesson, which future aspirants for power may read and profit by.—Demagogueism is crippled in its powers, and taught to consult the will of the people as well as their own. No more offers of free territory will be made to slavery by Northern candidates for the Presidency. The nominal distinctions of party are fast losing their identity, and we venture the assertion, that the next President of the United States will be a man who abrogates a repeal of the Missouri Compromise, and declares for free territory! The untimely and unseemly fire introduction of the measure under consideration, has driven the country to this issue—and they are ready to meet it—and *will* meet it in the election of all National officers. No man need think of running for Congress who is not right before the people upon this question; so we advise all who have an eye to "eight dollars a day and mileage," to shift their sails to the free winds of the North.—*Potosi Republican, (Democratic.)*

### The R. R. V. U. R. R. Land Grant Bill.

MR. WELLS voted against this Land Grant bill; Messrs. Eastman and Macy for it. The Standard and Gazette make a false issue when they represent the defeat of this bill as a refusal to aid *this state* in her public improvements. That bill would not have given a cent to any one but the R. R. V. U. R. R. Co., who would have received a gift of 2,000,000 acres of land to build a road in which the state would have owned no stock. We do not believe this city will, in this end, be any loser by the failure of this bill.

* * * *

We are, and ever have been, in favor of giving the public lands in limited quantities to actual settlers, *and to no others*. We believe the Homestead bill would do more to benefit this state than any other measure. Capitalists will build Railroads themselves as soon as the country needs them. We are often asked our opinion about the Land Grant. We stated in the *first No.* of the Free Press that we fully indorsed the Pittsburgh Platform. We have often repeated this, and do not sacrifice our opinions for sectional advantage nor personal interest. We do not sell our principles for land for ourself, nor for our neighbors. We think our Free Democratic members of the Assembly who voted against the Land Grant resolutions, acted considerately and conscientiously. The old Hunkers, a few years ago, were out and out against all monopolies.—Now they are the first in for any grant.—*Janesville Free Press.*

VESSELS BOUND UP.—A correspondent of the Chicago *Journal*, writing from Cleveland under date of April 4, says:

The following vessels sailed last evening for Chicago: Schr. H. C. Winslow, Gen. Scott, Welland, H. W. Gates; to sail this evening, Gen. Taylor, T. P. Handy, and Powhattan, propeller Republic, loading and will leave to-morrow for Dunkirk; propeller Queen of the Lakes and Forrest Queen leave in a day or so for Chicago.

Yours, W.

MANITOWOC HERALD.—This excellent paper comes to us in a new dress of type and considerably enlarged in size. We are glad to see these evidences of prosperity. The *Herald* is a credit to the Wisconsin Press and no small help to the flourishing town in which it is published.

### Mr. Knowlton's Substitute for the Liquor Bill.

Section 1. No Hotel keeper, tavern keeper, saloon keeper, grocery keeper, or keeper of any house of public entertainment of what kind soever, shall sell, give or in any manner furnish to another person, under any pretence whatever, or knowingly permit, or suffer to be drank in such hotel, tavern, saloon, grocery or house of public entertainment by any traveler, or idler therein thereat, or thereabouts, any spirituous or intoxicating liquor, or mixed liquor a part whereof is spirituous or intoxicating; and every person who shall so do, shall forfeit for every such act the sum of one hundred dollars, to be recovered by action of debt, in the name of any person who will prosecute therefor.

Section 2. No person other than those mentioned, or included in the first section of this act shall sell, give or in any manner furnish to another under any pretence, whatever in any quantity less than one gallon, any spirituous or mixed liquor a part thereof is spirituous or intoxicating; nor shall any such person so sell, give or furnish to another any such liquor to be drank, or permit the same to be drank in the house, building, messuage, or on, at or about the place where the same shall be sold, given or furnished as aforesaid. Every person who shall violate any provision in this section contained, shall forfeit for every such violation the sum of two hundred dollars, to be recovered by action of debt in the name of any person who will prosecute therefor.

Section 3. Any town, city, county or married woman may maintain an action for a violation of the preceding sections of this act; and no such town, city, county or married woman shall be required to give security for costs in such action.—When the action is commenced by a married woman she shall be entitled to use her husband as a witness to prove a violation of this act, and the amount recovered shall be her private property.

Section 4. If any two or more persons shall purchase, own or otherwise possess any spirituous and intoxicating liquor, and shall together drink the same at the place where the same is purchased, owned or possessed, or shall together resort to any other place for the purpose of drinking, and shall in any such place drink the same, every person so drinking said liquor in company with one or more persons, whether all are owners thereof or not, shall be guilty of a misdemeanor, and shall upon conviction of so drinking said liquor be punished by a fine of not more than fifty nor less than fifty dollars, or by imprisonment in the county jail not more than thirty nor less than three days, or both fine and imprisonment at the discretion of the court.

Section 5. If any person shall purchase any spirituous or intoxicating liquor, and shall drink the same or any part thereof in the house, building, messuage, or on, at or about the place where the same was purchased, or furnished, shall be guilty of a misdemeanor, and shall upon conviction of every such drinking be punished by a fine of not more than fifty nor less than five dollars, or by imprisonment in the county jail not more than thirty nor less than one day, or by both fine and imprisonment at the discretion of the court.

Section 6. All laws now in force relative to the granting of licence to sell spirituous or intoxicating liquors are hereby repealed.

Section 7. This act shall be printed by the state printer immediately after the passage thereof, and when so published shall take effect and be in full force.

### CIRCULAR

**To the Stockholders and friends of the La Crosse and Milwaukee Railroad in Wisconsin.**

An auspicious period in the history of our operations having arrived, it is appropriate, in view of progress made and difficulties surmounted, that we should interchange congratulations with our coadjutors, and for the information of those who are not cognizant of our current operations, present some of the reasons for mutual encouragement.

The Second Annual Report of the Board of Directors exhibits the condition of the Company on the 31st of December, 1853.

As at that time, so ever since, and now, the work of grading the road bed has been and is progressing with efficient forces: the first eighteen sections under Messrs. Cooke and Sherwin, and from that point to Horicon, fifty miles from Milwaukee, under Messrs. Bradley, Whittemore & Co; with every prospect of being in readiness for the iron rail in the month of June next.

The consolidation of the Milwaukee, Fond du Lac & Green Bay Railroad Company with ours, increases our nominal Capital from Four Millions to Six Million Eight Hundred Thousand Dollars.

This arrangement was negotiated and agreed upon between the Companies in the month of January last, and confirmed by the Legislature of the State of Wisconsin on the 9th of March ultimo. The advantages derived from uniting the interests, present means, and resources of the two Companies are—

1st, It restores to this Company the control of the Lake terminus of the Road—the entrepot of our route.

2d, It transfers to the La Crosse and Milwaukee R. R. Co. the entire subscription to the Capital Stock of the Mil., F. du L. & G. B. R. R. Co. made in the city of Milwaukee, and by parties elsewhere, amounting in the aggregate to over Two Hundred Thousand Dollars.

3d, The iron rails for 20 miles of track, purchased by the M., F. du L. & G. B. R. & Co. becomes the property of this Company, which is delivered at the dock and ready for our use.

4th, Valuable real estate in the fourth and fifth wards of this city, purchased by that Company for Depot grounds, at the cost of $80,000, becomes the property of this Company, with every prospect of increasing in value.

5th, The current expenses of carrying forward the enterprize by a plurality of organizations are reduced to those incident to only a single one; and thus in all the governmental, fiscal, executive and engineering departments, greater economy and more efficiency are secured to an undertaking, which, however it might be divided and subdivided, is, after all, a unit.

In this view of the subject we feel confident that all our associates and co-laborers at home, will approbate our course, as it meets the approval of our friends abroad. Its favorable influence upon our position in the money market is already perceptible.

Our Stock Agents along the line, as Mr. Clinton's report shows, are meeting with unprecedented success, so that we begin already to see our way clear for a million dollars of that class of securities; over 100,000 dollars of which have been negotiated, and all of which will be made available for the construction and equipment of the Road.

The fiscal condition of our Company, we may without boasting say, has been an enviable one. Our contractors have at every monthly estimate been paid their cash in full for all labor performed and materials furnished, and it is still the policy of the Company to avoid, to the utmost, contracting debts at Bank, or incurring, for any purpose, heavy and embarrassing liabilities.

Help, however, we must have, in order to postpone to the most favorable period, (which we think has not yet arrived,) putting a mortgage upon our road; we therefore improve the present occasion, to urge the prompt attention of Stockholders to instalments called for upon subscribed shares.

The near approach of the period when our road *must be* in operation, and the necessity of extensive preparations for that earnestly desired event, have justified the Executive Committee in authorizing contracts for Depots, Locomotives and cars, which will call for their share of investment during the current year—say 2 twenty-four ton machines in the months of June and July, and five more between August and December.

In providing the rolling stock of our road, the Superintendent recommends, and our Committee have authorized, contracting for such only as is of the highest repute for efficiency and *safety*, and especially that all passenger cars be provided with six-wheel trucks—i. e. twelve wheels to each.

True, the expense will be a few hundred dollars greater than for those usually employed, but the additional safety to passengers, as well as comfort in greater breadth of seats inside, we think warrants this increased primary expenditure.

A negotiation for twelve hundred tuns more of iron rails, on satisfactory terms, is now pending, which, if closed, as we expect it may be within a few days, will provide for the extension of our track to Hartford; and vigorous efforts will continue to be put forth to reach our Horicon Depot by October next.

The final location of the route from Fox Lake to Portage City is now being made by Chief Engineer Sill, and contractors are ready to put forces on to that division of the line so soon as the means in hand will justify the commencement of the work.

Altogether, then, we say, our condition and our prospects are good; our success, thus far has more than realized public expectations, though it is not exceeded our own purposes.

Our heart and hope are yet unabated, and, sustained by you in the future, as we have hitherto been, a bright good day, not distant, will witness the consummation of our wishes, the triumph of complete success.

STODDARD JUDD, President.

BRICK WANTED.—We would like to see some enterprising person or persons start a brick yard at this place. A number of buildings would be erected at once, if a good article was manufactured. A competent brickmaker would find it to be to his advantage to follow out the advice we have given.—*Jeffersonian.*

BOY DROWNED.—Charles Baker, aged about seven years—son of a German widow, fell from a plank on which he was floating into the river, near Main street bridge, and was drowned. The distress of his mother, who was soon on the spot, awakened the sympathy of all spectators.

The body has been found.—*Kenosha Telegraph*

### Important Decision.

(The case reported below is of much interest to those transacting business with the Aldermen of the City. The portions of the Charter as examined by the Court in his opinion, are Sec. 7, Chap. 5 and Sections 3 and 5 of Chap. 7.)

### POLICE COURT—April 7.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

James M. Warren as the City of Milwaukee, Action of Assumpsit. Plaintiff, his own Att'y. E. Toote, Esq., City Att'y, for the City.

[The whole of the evidence in the case is embraced in the Opinion of the Court.]

*Police Justice*—

This is an action brought by the Plaintiff to recover the balance claimed due upon the following account:

*"The City of Milwaukee in cont with James M. Warren*—

| | |
|---|---|
| 1852. March 8. Fifth Ward of the City of Milwaukee, To services in the suit of Rosebeck vs. the Ward, | $3 00 |
| 1853. Sept. 15. To services rendered in the suit in the County Court of H. Shew vs. the City. | 10 00 |
| To services as Clerk of 5th Ward Board of Street Commissioners from March 7, 1853, to March 7, 1854. | 100 00 |
| | 113 00 |
| Credit on the last charge, | 60 00 |
| Balance due, | $53 00 |

The first two items were proved by Plaintiff's Account Book, authenticated in the manner prescribed in the Statute, with the further proof that the services in the 2d item were rendered at the instance of Alderman Martin of the 5th Ward.—The nature of the services, or the capacity in which they were rendered, does not appear from the testimony; if as an attorney, the necessity for them is not apparent, inasmuch as there is a city attorney whose duty it is by law, to perform all professional services necessary for the city. It is more than doubtful whether a single alderman can employ the services of counsel, so as to charge the city in suits to which it is a party. In the absence of proof of due employment, or at least a knowledge that such services were to be rendered on the part of the city government, the plaintiff cannot recover these items.

It appears from the records of the Street Commissioners of the 5th Ward that the Aldermen met on the 17th of March, 1853, and organized as a board of Commissioners, and passed the following resolutions:

"Resolved, that James M. Warren be and hereby is appointed Clerk of the Board of Street Commissioners of the 5th Ward of the City of Milwaukee for the ensuing year at $50 per year." "James M. Warren accepted said appointment with a verbal understanding." The record was subsequently amended by striking out the words "with a verbal understanding"—The Plaintiff went on and discharged the duties of clerk for the year. Two of the aldermen in subsequent conversation frequently stated that $50 was not a sufficient compensation for the amount of services required, but no express contract was entered into subsequently. Mr. Church, Ex-Alderman of the 3d Ward, stated that he was Clerk of the Board of Street Commissioners in his ward,—that he was acquainted with the duties of such clerk, and that from his knowledge of the business of the 5th Ward, he was of opinion that Plaintiffs services were worth $100. Now, does the above resolution, together with the fact that Plaintiff went on and performed the services, amount to a contract, binding in law, which will preclude the Plaintiff from recovering what the services were reasonably worth? From a careful examination of the provisions of the charter, I am satisfied that the Board of Street Commissioners, in street capacity, had only the power of appointing, but not that of fixing the amount of compensation to be paid. Yet all the costs and expenses incurred by them were properly chargeable to the 5th Ward fund. They might as aldermen of the ward, but not as Street Commissioners, contract for the amount of compensation which was to be paid to the Plaintiff for his services. As Street Commissioners they could not exercise any other or greater power than is conferred upon them by the charter. There is no evidence that they did contract with Plaintiff in their capacity of Alderman. In the absence of a contract, the Plaintiff is entitled to recover so much as the services were worth, and the court finds a balance due the Plaintiff of $40—Judgment accordingly.

A man named John Doe was arrested for assault and battery upon John Gerig. The case was set down for this morning at 9 o'clock.

The case of the state vs. Gallagher, was dismissed for want of prosecution.

ATTACK UPON MR. NOONAN IN THE STREET.—An attack was made upon our Postmaster, Mr. NOONAN, on Saturday morning by S. PARK COON Esq. Mr. Noonan had just parted company with Mr. Donan, at the front of the Police Office, and was proceeding along East Water Street, when Mr. Coon stepped up behind him, and taking him by the collar pulled out either a stick or whip.—we were unable to distinguish which—and struck Mr. Noonan one or two blows. The parties closed, and Mr. Noonan was thrown. Several interfered, and stopped Mr. Coon from striking Mr. Noonan on the ground. Mr. Coon made another blow at Mr. Noonan, scratching his face, when the parties were separated.

EAST WATER STREET. The Street Commissioners of the 3d Ward have invited a public meeting of the owners and occupants of property on this street to advise them as to what ought to be done towards its improvement.

"What is every body's business is no-body's business," and therefore we suppose that no meeting will be held. We venture to say, however that a petition to the Common Council for the paving of the street and gutters, and grading and flagging of the sidewalks from the Market House to Walkers Pt., would receive the signatures of 99 out of 100 of the owners and occupants of lots and buildings on that street. It is, in wet weather, a disgrace to a civilized community.

FORWARDING AND COMMISSION.—See the advertisement of Messrs. ARMSTRONG & Co., forwarding and commission merchants, who, at their neat and commodious new warehouse on the Walker's Pt. Basin, are ready to attend to all business in their line.

PRACTICAL HATTERS.—Messrs. BARDSLEY & SCHLEIER, at their very tastefully arranged store under the United States Hotel, announce their readiness to supply the public with first rate Milwaukee made hats, together with anything and everything else in their line.

NARROW ESCAPE FROM DROWNING.—On Saturday afternoon, a boy named Henry J. Allen, while passing on the dock behind Ludington's Block, missed his hold and fell in the river, and catching at a plow, dragged that with him. He was seen to fall, when Hiram Bood, a mason, jumped in and brought him to the surface, when he was pulled out, more frightened than hurt. On being asked if he could swim, he answered no, but he tried to and couldn't. The loss of his hat was the only damage done.

### A CARD.

MILWAUKEE, April 8, '54.

MR. EDITOR:—While on the way from my house to my office, this morning, walking alone on East Water street, absorbed in thought about some business matters, I heard some one call my name hurriedly *from behind*, and on turning my head quickly, to see from whence the call proceeded, I was clinched by the collar, and without any explanation or notice, or a word spoken, and so far as I know without any reason struck in the face, by S. Park Coon. He had a whip in his hand and endeavored to use it, but I caught it and prevented him from doing so. He was taken in charge by some gentlemen, who saw the attack, and I proceeded about my business. I was unarmed and unprepared for an assault.

The attack, as I think you and every unprejudiced man must admit, was most cowardly and unjustifiable. It was, indeed, assassin-like, and made by a man who is well known here as a moral, political and pecuniary bankrupt and vagabond—a coward and an assassin in his conduct, and who has injured alike all who have trusted him with their confidence, whether they have been individuals, or the State.

Hereafter I shall endeavor to be prepared for the coward and his allies, if he has any, tho' I have no apprehension, from the sneaking manner he assaulted me, that he will venture a repetition, when he has reason to think I would be forewarned.

Respectfully Yours,
J. A. NOONAN.

ARREST OF AN OLD OFFENDER.—A man named Sullivan was arrested on Saturday afternoon by Officers Kessler and Meloy for striking a man on Huron street with a knife. The officers proceeded to jail with the man, and when near the jail, he drew a knife and refused to go any further, swearing he would kill the officers if they attempted to take him to the jail. Meloy struck him on the hand, knocking the knife on the ground; he was about to break away when Kessler drew his pistol, told him he'd shoot him if he ran. This brought him to, and he was lodged in jail.

Address of the
MEMBERS OF THE LEGISLATURE,
FRIENDLY TO A

*To the people of the State of Wisconsin:*

We, the undersigned, members of the ... and Assembly, friendly to the ... In accordance ... this conclusion, we have drawn up ... following statement of the inception, ... and final defeat of "the bill for ... suppression of the traffic in intoxicating ... for improper purposes," during ... session.

... the State of Maine set the ... example of proscribing the im... traffic in spirituous liquors, within ... borders, and the innumerable evils ... follow in its train, the subject of a ... Liquor law has been agitated ... by the people of Wisconsin. ... two sessions of the legislature, prior ... last, ineffectual attempts have been ... to pass a law of this character.—Petitions were poured in upon the legislature during the session of 1853, from all ... of the State, and the measure ... by a vote more potential than ever ... for any other law of that body. ... it been for the restriction of any other ... that vote would have been obeyed ... but the legislature shrank from ... responsibility of passing, what in the ... phrase, they termed to believe an ... question in legislation. The only ... which they condescended to make ... the demands of the people was to ... them the poor privilege of voting ... the question of such a law at the ... general election. Last November ... people voted upon that question, ... by a handsome majority, demanded ... their representatives the enactment of ... a law.

This question entered largely into the ... of representatives, and a decided ... of the members of the Assembly ... elected from among the friends of ... principle of prohibition.

In the Senate the case was different.—One half of its members held over from ... year. They were elected with no reference to this subject, and a majority of ... who held over were hostile to a ... liquor law. The influence of party ... stronger in the election of a Senator ... Hence it is that a proposition to confer upon them a species of *Legislative power*, by authorizing them to decide, by their vote, what shall or shall not become the law, is almost unprecedented. It is true, that, by the constitution, our banking law was subjected to this ordeal, but it is well known that a majority of the framers of that instrument were hostile to banking. They inserted that provision through hostility to banks. They regarded it as virtually prohibiting banks throughout the state. They felt secure in the belief that nothing but an almost unanimous uprising of the people in favor of such institutions, could effect the passage and endorsement of a banking law. They believed banking wrong in principle and thought they had placed next to an insuperable barrier in its way in this state, by providing for submitting a law, in all its details, to a *vote of the people*. A popular movement of a unanimity which could not have been anticipated did occur. The demand for banks became so universal and urgent that it overwhelmed all obstacles.

A Legislature was elected which submitted the question of "Banks" to the people. That question was decided in the affirmative by an overwhelming majority. The next Legislature enacted a banking law, which, at the succeeding fall election, was approved by the people. To submit the liquor law to a similar ordeal would certainly have been unjust; and, what had a still stronger influence upon the action of friends, they considered that it would unquestionably be unconstitutional.

Legislatures are expected to take the responsibility of passing such laws as the people may demand, unless where the constitution makes an especial expedition, as in the case of the banking law. Those even who urged the adoption of the submission clause, in the Liquor Law, admitted that they deemed it unconstitutional.—No one, friend or foe, expressed any other opinion. Members of the Legislature *swear to support the constitution*. It was hardly consonant with what the friends of this bill deemed their duty, after taking such an oath, to vote for a provision which they believed, —and which was *generally admitted*—to be unconstitutional. In addition to all this, there was a possibility, a probability—that such a submission would render the whole law unconstitutional in the opinion of our courts, even should it escape the veto of the Govenor.

Under these circumstances, the friends of the bill consulted together, and determined that their only course was to oppose this impolitic and unjust provision. They were firmly of the opinion that it was far better to trust to the people the selection of men who would truly represent their feelings on this subject, in the next Legislature, and who would pass this law without rendering it liable to any such constitutional objections, than to accede to the amendment of the Senate. A committee of conference, however, was appointed upon the disagreeing vote of the two Houses, consisting of six members—three from the Senate, two of whom were hostile to the principle of a Prohitory Law, but in favor of the submission clause, and one friendly to such law, but opposed to submission; and three from the Assembly all favorable to the law and opposed to submission. Thus the committee consisted of four friends of the law, opposed to submission, and two enemies of it, in favor of submission.

The committee consulted together for the purpose of agreeing upon some compromise. But the two members hostile to the bill refused to make any concession whatever to the wishes of those who opposed the submission clause, in its very odious form. The latter felt, as they were in the majority, that something should be yielded by their opponents. The submission clause had barely passed the Senate by a vote of thirteen to twelve; it was stricken out in the House by the decisive vote of forty-six. Still, in their desire to secure the passage of the law which had been emphatically called for by a vote of the people at the ballot-box, its friends in the committee were finally induced to yield almost everything to the demands of the Senate. They proposed to strike out the section containing the submission clause, and insert another providing that the act should go into effect on the first day of February, 1855; and that, at the general election next fall the people should vote on the question of its repeal. If there should be a majority for repeal, the succeeding Legislature would of course repeal it; if not, the vote would be in the nature of an instruction to that body against repeal. Here was *delay*, longer even than its opponents asked, and a *vote of the people*, which would test their sentiments in regard to the law just as truly as the other method of submission, and without rendering it obnoxious to the constitutional objection which would be incurred by conferring *Legislature power* upon the people. Every demand of the Senate was fully complied with, except the violation of the *constitution, which would render it the imperative duty of the Governor to veto the enactment*. Its friends had yielded everything but this had gone farther than they ought in justice to their constituents; yet their proposition which went *beyond* fairness, was rejected and they were frankly told that the opponents of the bill were willing *to take advantage of any unconstitutionality which might attach to the law by the proposed mode of submission*! In making that proposition, they had gone to extreme limit which their own ideas of propriety or which their duty to their constituents would allow. They were satisfied that no compromise could be agreed upon, and accordingly the majority of the committee reported in favor of retaining it. The Senate adopted the report of the latter, the Assembly that of the former.

It is the intention of the opposition indubitably, to pervert these facts, and to place the real friends of the law, in both Houses, in a false light before the people, respecting their action on the bill. The work of misrepresentation has already begun. It is already hinted that the measure failed through the *obstinancy* of its advocates. We ask every reflecting man, every true friend of the Temperance Reform, to read the facts we have narrated, and which cannot be gainsayed, and we are ready to abide his decision, and stand convicted or acquitted of the implied charge, according to his deliberate judgment upon the facts here presented.

In conclusion, we have but a few suggestions to make. The subject of a Prohibitory Liquor Law will again be agitated at the coming November election, and will probably cause more excitement than at any time heretofore. The prospect of success is not at all discouraging. This year the people have only to elect a House favorable to it, as they did last year, and seven members of the Senate out of the thirteen to be elected, who are true on the law, and its enactment is certain. The cause of its defeat at the late session, was chiefly owing to the fact that one half of the Senators held over from last year, and were chosen without reference to this measure. A majority of them happened to be opposed to it, and thus the bill failed to become a law. The members of the next Legislature will probably all be chosen with more or less regard to their vote on this measure; and if the people are true to themselves, and vote consistently with their own professions, their representatives will comply with their demands. If they do not, the fault lies with them, and they should not complain of the Legislature.

This reform is one which ought not to be made a political matter. Demagogues may attempt it, but the people should frown upon such attempts. It may be of more real importance to the people of Wisconsin, than any other issue which will come before them at the next election. The proper course, however, is, in our opinion, not to organize a party upon it, but the people should be more diligent in attending the primary meetings or caucuses of the several political parties to which they may belong. There is the place to labor. If you take those meetings out of the hands of petty demagogues as you ought, and make their action the result of your real wishes as you should, you will nominate men who will truly represent your sentiments. This is an issue to which no particular party can lay claim. It should be kept free from all contamination of the kind.

It is a great moral reform. It is to banish drunkenness, and poverty, and crime. It is to turn aside the rivers of intemperance, which now roll their turbid, devastating floods over the fair State of Wisconsin. It is to turn the thousands squandered in ministering to the cravings of a depraved appetite to their legitimate uses, to the augumentations of our manufactures and commerce, to the development of the agricultural resources of our State, and to the establishment of libraries and institutions of learning, instead of brutalizing and impoverishing our population, and rendering necessary extensive expenditures for prisons and alms houses.

FRIENDS OF THE TEMPERANCE REFORM!—You are called upon to make one more effort, one more earnest and united struggle, in which every man must do his duty, and we feel confident that your endeavors will be crowned with complete success.

FRANKLIN ON THE COPPER MINES OF LAKE SUPERIOR.—It would seem from the following extracts of a letter dated May 1, 1829, from Samuel Preston, of Stockport Pa., to the editor of the New York American, that the existence of copper in the region of Lake Superior, was known earlier than it is generally supposed to have been, and that the United States are indebted for its possession to Dr. Franklin:

"Dr. Franklin told me that when he was drawing the treaty of peace with England, in the city of Paris, he had access to the journals and charts of a corps of French engineers, that had sloops and were exploring Lake Superior when Quebec fell to the British, from which charts he drew the line through Lake Superior to include the most and best of the copper ore to the United States; that the time would come when drawing that line would be considered the greatest service he ever rendered his country, and the copper ore be a greater source of wealth than any other nation possessed; that the facilities of transportation would be well improved so as to export that copper ore to Europe cheaper than they raised it from their own mines."

### Connecticut.

At the last year's election, the entire Democratic State ticket was elected by the people, having clear majorities ranging from 1,208 to 3,326 in a poll of some 60,500 votes. The Governor ran lowest, being voted against by some Maine Law Democrats, and the vote for this office was cast as follows:

| | |
|---|---|
| For Seymour, Adm | 30,814 |
| For Dutton (Whig) | 29,671 |
| For Gillette (F. S. and M. L) | 8,926 |
| Scat. 9. Seymour's maj | 1,208 |

Four Democrats were chosen to Congress by large pluralities—each having a clear majority—and the State Senate was composed of *fifteen* Democrats to six Whigs and Free Soilers.—*N. Y. Tribune.*

*Note*, the case is quite different. The "democratic" candidate for Governor is badly beaten and the Whigs and Free Soilers have a large majority in both Houses of the Legislature.

A Model of a Colossal Statue of FRANKLIN, intended hereafter to be executed in marble, and erected in Boston, has just been placed on public exhibition in that city. It is sixteen feet high.

DR. HOOFLAND'S CELEBRATED GERMAN
**BITTERS,**
Prepared by Doct. C. M. Jackson,
AT THE GERMAN MEDICINE STORE,
120 Arch st., Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

If these Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are without any certain and positive.

READ AND BE CONVINCED.
[From the Boston Bee.]

The Editor said, Nov. 22d: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular remedies of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an entire and permanent cure of Liver Complaint from the use of this remedy. We are from time to time in the receipt of advertisers, the puffs of which generally gain strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. Or are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY.

One of the best literary papers published, said, August 2: "Dr. Hoofland's German Bitters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much suffering. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

MORE EVIDENCE.

The Hon. C. D. Hasleine, Mayor of the City of Camden N. J., says:

"Hoofland's German Bitters.—We have seen many flattering notices of this medicine, and the source from which the cause induced us to make inquiry respecting its merits. From inquiry we were persuaded to use it. We must say of a truth, it specific in its action upon diseases of the liver and digestive organs, and the powerful influence it exerts upon nervous prostration is really surprising. In whatsoever complaint the above organs are deranged there is a state of repose, making sleep refreshing."

"If this medicine was more generally used, we are satisfied there would be less sickness, as from the stomach, liver, and nervous system, three-fourths of the most prominary diseases emanate. Have them in a healthy condition, and you can bid defiance to epidemics generally.—This extraordinary medicine we would advise our friends who are at all indisposed, to give a trial—it will not disappoint. It should, in fact, be in every family. No other medicine can produce such evidence of worth. No evidence upon evidence has been received like the foregoing from all sections of the Union the last three years, and no strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than all the nostrums combined. Such a fact cannot easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia, there can exist no doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to females or infants with safety and reliable benefit, at any time.

LOOK WELL TO THE MARKS OF THE GENUINE.

They have the written signature of C. M. JACKSON upon the wrapper, and the same blown in the bottle, without which they are spurious.

For sale, wholesale and retail at THE GERMAN MEDICINE STORE, No. 120 Arch street, one door above Sixth, Philadelphia, and by respectable dealers generally throughout the country.

**The Greatest Discovery of the Age.**

PROFESSOR WOOD OFFERS FOR SALE A perfect HAIR RESTORATIVE. It will in a short time restore the Hair which has become gray permanently to its original color, being free from dye or any other preparation of the kind. Since it is falling off—clean the head of the dandruff and fielding—removes all cutaneous eruptions, and renders the scalp perfectly healthy by restoring the secretive organs to their healthy action and strength, and thus supply nutriment and coloring matter to it. It does not color the hair, but is, in short, a perfect Hair Invigorator and Tonic—in proof of which he will select from among the mass the following Certificates, viz:—

Ills. STATE OF ILLINOIS,
CARTILE, June 27th, 1853.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its wonderful effect. My hair was becoming, as I thought, prematurely gray, but by the use of his "Restorative," it has resumed its original color, and, I have no doubt, permanently so.
SIDNEY BREESE,
Ex-Senator United States.

VINCENNES, Ind., June 15, 1852.

Prof. O. J. Wood—Dear Sir:—As you are about to manufacture extensively and vend your recently discovered Hair Restorative, I will state, for whomsoever it may concern, that I have used it and known others to use it, and I have found it answer all that is claimed for it. Having been in the habit of using other Hair Restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head of dandruff, and will, with one application, restore gray hair to its original youthful color and texture, giving it a healthy, soft and glossy appearance, and all this without disordering either the hands which apply it, or the head on which it is spread. I cordially, therefore, recommend it to every one desirous of having a fine color and texture to hair.
WILSON KING.

St. Louis, June 29, 1853.

Prof. Wood—Dear Sir:—As you are about to prepare and vend your recently discovered Hair Restorative, and as you request my opinion of it, I will state that my hair was, a few months since, very gray, and after using two bottles of your Hair Restorative it assumed its original color; and since it has supplied all dandruff has disappeared from my head, and I have been troubled with no disagreeable itching of the scalp. I am satisfied that those who use it will not regret it, as it gives the hair not only its natural color, but it gives it the appearance of having been recently oiled. I am prepared, therefore, to recommend its use to all who are desirous of having a beautiful head of hair.
H. L. STEWART.

The following certificates speak for themselves, as the gentlemen whose signatures are attached, are known to thousands:—

St. Louis, September 29, 1853.

Dr. O. J. Wood—Sir:—I have used nearly two bottles of your Hair Restorative, and have found its effects very satisfactory. It has completely destroyed all dandruff from my head and has restored my hair to its original color, which had become quite gray.
WM. CHESHALL.

St. Louis, September 29, 1853.

Dear Sir: By the advice of a friend of mine, who had been using your Hair Restorative, I was induced to try it, discovering, to my great satisfaction, that my friend's statement, which I then saw him before, was very true, for I have completely restored to its original color, having as fine glossy appearance as it had w... twenty years ago.

I commenced using the Reste... weeks ago, and am perfectly convinced that it will produce the desired effect, it having restored the sense... hair, more than half of which was white, to its... when I was twenty years old, with the same healthy and glossy appearance. I have no hesitation in recommending it to my friends and the public generally, believing that if used according to directions they will not be disappointed.
Yours, very respectfully,
N. B. HOLMAN.

BLOOMFIELD, June 10, 1853.

Prof Wood—Dear Sir: Since you request me to give you a statement of the effects of your wonderful Restorative upon me, I cheerfully state, in reply, that I have now used three bottles of it, and am happy to say that it has restored my silvery white (my age being sixty-four,) in one month's time it had resumed precisely its original color and so perfect that my friends all thought I looked twenty years younger than I had done for many years past, and made of what they considered a perfect miracle, until I informed them it was but the result of an action of yours called Hair Restorative. I will also state that I was much troubled with dandruff and itching, particularly when in bed, but since it has supplied all dandruff has entirely vanished, and it is not required three or four applications to remove all dandruff and itching; and although my hair had fallen off until I was somewhat bald, I now can say that I am a head of hair, both in color, soft ness and lustre, as I had not but a youth, and quite as abundant. It is proper for me to state that I commenced its use in August last, and used none since January. I have no doubt therefore but that the change is a permanent one. I can therefore recommend it as the most wonderful discovery of the age in which we live.
S. M. RANDALL.

for Grist and Saw Mills. Also, all kinds of Machinery, at their Foundry establishment, Nos. 292 and 304 West Water Street.

Their stock of patterns cannot be equalled—and they all bear the mark of Turton & Sercombe, especially for the vessels of this State—and they can and will do better than any similar establishment in this State, and on the shortest notice.

The undersigned respectfully solicits a share of the patronage of the public to
